BLUE AND BROWN.

A Spectacular and Hotly Contested Engagement Between the Two Armies.

CARLOADS OF BLANK CARTRIDGES

Hills Reverberated to Pounding Cannon and the Clattering Roll of the Krag Rifles.

Blue Army Inflicted the Largest Loss as Talled By the Umpires—The Firing Was the Heaviest Yet Witnessed.

Camp Young, West Point, Ky., Oct. 9.—More spectacular and hotly contested, but lacking one or two of the finer points brought out in previous maneuvers, was the engagement participated in Thursday by practically the entire number of regular soldiers and national guardsmen in camp. When recall was sounded after two hours of hot fighting the result was practically a dog fall, the Blue army inflicting the heaviest loss as tallied by the umpires, but the Browns largely making up for this by a greater readiness to seize tactical advantage of position. The firing was the heaviest yet witnessed by the observers here. Car loads of blank cartridges were expended by infantry, cavalry and artillery and from the time the opposing forces met until the game was over the hills reverberated to pounding cannon and the clattering roll of the Krags frequently rose to the crash of heavy volley firing.

The problem for the day was laid down by Col. Wagner, who gave the commanders of the Blue and Brown armies wide latitude. There was no specification as to position or as to which should act on the defensive as in the maneuvers hitherto planned and executed. A division of Blues and a division of Browns were simply set in motion from points ten miles apart, each acting on orders to attack immediately on contact with the "enemy." Each division contained about 4,500 fighting men. The Blue division, commanded by Col. Anderson, was composed of the first brigade (seven battalions representing the 1st, 3d and 20th United States infantry and the 1st, Wisconsin regiment); second brigade (1st, 2d and 3d Indiana infantry, the 7th cavalry, two squadrons, and the 14th battery, field artillery).

The Brown division, commanded by Brig. Gen. Bliss, U. S. A., was composed of the third brigade (1st, 2d and 3d Michigan); fourth brigade (2d and 3d Kentucky, 8th Ohio and Kentucky light artillery battalion used as infantry); seven troops of cavalry, the 21st battery, field artillery, 1st battery, Indiana field artillery.

The battle was precipitated at the entrance to a long and tortuous decline in the hills, two guns from the 21st battery and two troops of cavalry being sent on the run to take and hold it before the Blues came up. The Blues had, however, already gained a position from which they could turn the defile so the Brown force was compelled to retire. This move on the part of the Brown commander threw the original plans of the Blues into confusion and forced them to strike at the Brown left and left center. Accordingly the Indiana brigade delivered a hard blow for the Blues, the firing during their attack on the Brown left wing being the hottest of the day. The Indiana guardsmen who have already gained an enviable record enhanced it still further by capturing three companies of the 8th Ohio and inflicting losses on the 3d Kentucky and 8th Ohio, estimated by the umpires as 120 "killed."

This, of course, caused the Brown left wing to fall back for some distance. The Indiana brigade was, however, unable to successfully turn the left flank of the Browns and the reason for it was that some of their Hoosier brethren worked on the other side and got into the game. The Indiana field artillery, a part of the Brown forces, came to the rescue of the left and by smart work that won them praise from the experts, prevented the Blue artillery and cavalry from following up the advantage the infantry had gained. The Indiana battery, although using horses which had never seen a cannon until the maneuvers began, managed to take good position and fire a dozen shots before the 14th battery (regulars) could take a good position for the Blues. The result was that the Blue advance on the left was checked.

Pittsburg, Pa., Oct. 9.—That the enthusiasm in the world's baseball championship series has not abated to any extent was shown when another large attendance turned out to witness the third home game, although high western winds made it rather uncomfortable for the spectators. Boston won, 6 to 3.

KENTUCKY FUTURITY.

Sadie Mac, Smathers' Recent Purchase, Won the \$14,000 Purse.

Lexington, Ky., Oct. 9.—Sadie Mac, E. E. Smathers' recent purchase, won the historic Kentucky Futurity for 3-year-olds, purse \$14,000, with ease and without apparent effort in three straight heats, going the last mile in 2:12½, which is two seconds short of the record made by Ferenio three years ago, and going the first heat of the first mile in 2:08. She won by several lengths in each heat and only at one time was her contention for the crown in danger and that was in the first seven-eighths of the first mile, when Ethel's Pride kept nose to nose with her. Ethel's Pride, however, broke and finished bad in all three heats. The two mares made the first quarter in 32 seconds.

Among the 5,000 people who saw Sadie Mac take the first money was Mr. Johnson, of Calais, Me., who sold her as a yearling for \$4,000. Her driver, A. McDonald, sold her to Mr. Smathers Tuesday for \$20,000.

SHANKLIN MEMORIAL DAY.

Sale of Tickets Thursday Netted a Total of \$4,000.

Lexington, Ky., Oct. 9.—Sixty tickets to the trots Shanklin memorial day were sold Thursday night for \$2,500. After the auction \$1,500 more was added, making a total of \$4,000 to begin with. Secretary Wilson expects a crowd of at least 10,000 people to attend the trots Saturday. Every harness champion in the country will be exhibited then in addition to the regular program and special music. The gate receipts will be given to the late E. W. Shanklin's family. Col. W. C. P. Breckinridge spoke at the auction.

THE CALEB POWERS CASE.

His Attorneys Filed Their Bill of Exceptions.

Georgetown, Ky., Oct. 9.—The attorneys in the case of Caleb Powers after several hours work in the special term of court convened by Special Judge Robbins for the purpose, filed Thursday afternoon their bill of exceptions in order to get the case before the Kentucky court of appeals. The 60 day limit gives the defense attorneys until December 8, and as the court of appeals adjourns December 18 for the holidays, the Powers case will probably not be up for decision before the term in January, 1904.

Reported Killed in Tennessee.

INSANE ON A TRAIN

Seized One of His Children and Suddenly Plunged Through the Car Window.

HIS WIFE GRABBED THE CHILD.

Train Was Stopped and Searchers Found the Man Lying Beside the Track Apparently Dead.

He Revived and Was Taken on to Crawfordsville, Ind., Where He Held the Police at Bay For Hours.

Crawfordsville, Ind., Oct. 9.—Wesley Hedges, traveling on a Big Four train accompanied by his wife and three children, en route from Jacksonville, Va., to LaHarpe, Ill., suddenly became deranged while on the train, and after arriving here held the police at bay for a long time.

While the train was running 50 miles an hour Hedges suddenly gave a wild scream, and seizing one of his children, plunged through the car window into the darkness. His wife grabbed her boy just as the man disappeared.

The trainmen stopped the train, and with the assistance of the passengers a torchlight search along the tracks was made. The searchers soon came upon Hedges lying near a telegraph pole. He was picked up for dead and placed in the baggage car and brought to this city. Shortly after arriving here he began to show signs of life. Left in the station unguarded Hedges again became violent and sprang out of the station and ran down the streets pursued by the entire police force. With large stones which he picked up he kept his pursuers at bay. He was finally overpowered and taken to jail.

BLOODHOUNDS AS WITNESSES.

A Question as to Their Competency in Criminal Proceedings.

Lincoln, Neb., Oct. 9.—The question of the competency of bloodhounds as witnesses in criminal prosecutions has been brought to the supreme court of Nebraska. The case is that of George W. Bratt, of Nemahac, convicted of burglary and sentenced to the penitentiary for three years. In his appeal Bratt alleges he was convicted mainly as a result of bloodhounds trailing him from the place the burglary was committed to his own home, where a stolen purse was found.

In his brief filed Thursday in behalf of the state, Attorney General Prout admits part of Bratt's contention, that the dogs are incompetent to take the oath and are not subject to cross-examination, but otherwise he maintains they are fit silent witnesses, and as such their testimony is as conclusive as that of a man in circumstantial evidence.

A LANDSLIDE.

One Man Killed and One Fatally Injured Near Oil City, Pa.

Oil City, Pa., Oct. 9.—A landslide on the Buffalo and Allegheny division of the Pennsylvania railroad Thursday caused the death of one man and fatal injury of another. It is not known at what time the slide occurred, but it took the track with it for 300 feet. This was not seen by Engineer Beale until he was almost upon it and then the engine tender and five of the cars plunged from the hanging rails and crashed down the embankment for 50 feet, to the water below. The locomotive rolled over and went into the river.

OFFERED NO RESISTANCE.

Three Alleged Cracksmen Captured in Nebraska.

Shelton, Neb., Oct. 9.—Three men, giving the names of Frank Gordon, John Carroll and Walter Dillon were captured by the sheriffs of Buffalo and Hall counties and detectives from Lincoln Thursday at a farm house near here. They were in bed and offered no resistance, though heavily armed. The officers charge that they are the men who cracked the safe of the bank of Byron a few days ago and secured \$2,000. Bank bills aggregating \$800 were found hidden in the house.

Confessed His Crime.

Milwaukee, Wis., Oct. 9.—Arthur C. Nagel, who is said to have absconded from Buffalo with \$2,500 on June 20 and who was arrested on suspicion by Milwaukee detectives, confessed to Inspector Riemer Thursday. The young man worked for a Buffalo bank.

Louisville, Ky., Oct. 9.—John J. O'Donnell, a locomotive fireman, living at 916 West Oak street, was perhaps fatally stabbed here Thursday night by two unknown men. Jealousy is said to have been the motive.

The association has decided to send an organizer into Mexico to institute organizations in that country, and an appropriation was made to help carry out the plans. It was reported that there are 67,000 members in the association representing 225 cities in the United States and Canada.

SEPARATE SCHOOLS.

A Resolution to Create Them Declared Illegal.

Kansas City, Mo., Oct. 9.—Mandamus proceedings have been brought in the district court in this county to compel the Coffeyville school board to permit the white and Negro school children to attend school together. The school board a few weeks ago passed a resolution creating separate schools, but later learned that their action was illegal and the resolution was rescinded. The superintendent of schools, however, sent all the Negro children to one building under Negro teachers. The suit is the result of his action.

DUKE OF WESTMINSTER.

He Acquires 160,000 Acres in the Orange River Colony.

London, Oct. 9.—The duke of Westminster has acquired 160,000 acres of land in the most fertile section of the Orange River Colony, and will leave England for South Africa this week to inspect the property. He purposes to colonize the territory with English farmers. Tobacco culture will be one of the principal features of the cultivation.

MUNICIPAL OWNERSHIP.

Bloomington, Ill., Oct. 9.—Dr. J. A. Smith, a prominent physician of Manchester, Ill., and a leading member of the masonic fraternity of Central Illinois, died on a Chicago & Alton train while nearing Dwight Thursday night.

A SERIOUS BATTLE.

About 300 Turks Reported Killed and Wounded by Insurgents Near Gumenjo.

THE FIGHT IS STILL PROCEEDING.

Irritated by Servian Raids 10,000 Albanians Threaten to Cross the Frontier, it is Reported.

The Feeling Prevailing at Sofia, Bulgaria, Thursday Was More Hopeful Than For Months—Recruits Being Discharged.

Salonica, Macedonia, Oct. 9.—A serious engagement occurred October 6 between Turks and insurgents near Gumenjo (35 miles from Salonica.)

About 300 Turks are reported to have been killed or wounded. Fighting near Gumenjo is still proceeding. The Turkish troops there are commanded by Ibrahim Bey, who has asked the military authorities at Salonica to send him two mountain guns. No such guns are available.

It is reported that 10,000 Albanians, irritated by the raids of Servian bands, threaten to cross the frontier. A strong Servian band is ready to cross the frontier near Numanovo (about five miles north of Uskub.)

Sofia, Bulgaria, Oct. 9.—The feeling prevailing Thursday was generally more hopeful than for some months past. It is based on reports which, while unconfirmed, appear to be well founded. These reports are to the effect that the government is preparing to discharge the recruits summoned for three weeks drill and that this report on the authority of the Dvenik—the Turkish and Bulgarian governments have reached an understanding on the question of demobilization whereby Bulgaria will release 20,000 men and Turkey 40,000. If this agreement is carried out Bulgaria will disband all the reservists recently summoned. Twenty-four thousand recruits will come under the colors October 9.

A telegram from Tchernaskala says that the frontier guard was called out Wednesday evening and proceeded to Kuan, when they found the whole country across the border in flames.

IN THE FAR EAST.

War Between Russia and Japan Now Seems Inevitable.

Paris, Oct. 9.—Official information received here shows that a formidable Russian fleet, composing 90 warships of all classes, has left Port Arthur and has arrived at Ma-San-Pho, south of Corea, where the Japanese fleet had already arrived. The Russian ships have anchored within the Ma-San-Pho harbor alongside the Japanese ships. Several brigades of Russian troops have been moved forward to the Korean boundary and are now encamped on the border.

The news has been received here that Russia is prepared to defend her position of refusing to evacuate Manchuria as per agreement until China shall have yielded to her demands. This is taken as meaning that trouble in the far east is shortly to be proved inevitable. The sending of warships to Corea, where Japan previously had dispatched troops on a formidable fleet, and the movement of Russian troops closer to the Korean border is regarded as ominous for world peace.

A CANADIAN ARMY.

Force of 100,000 Men to Be Called on in Case of Emergency.

Ottawa, Ont., Oct. 9.—Sir Frederick Borden, minister of militia and defense, in the house on a vote of \$1,300,000 for arms and equipments, said that it was intended to have a force of 100,000 to be called on in the case of an emergency. Of these 40 per cent. will be enlisted at once and nearly one-half will be called upon for annual drill. The other 60 per cent. will be supplied with arms and ammunition and will be ready in case of trouble. All the officers and non-commissioned officers will have to turn out for annual drill. An ordinance corps and engineer corps and a mounted corps will be established at once.

 FRIDAY, OCTOBER 9, 1903.

AFTER much consideration and deliberation the Cuban authorities have decided to deport the American negro. Of all immigrants to the young republic he is held by the Cuban officials to be the most undesirable. If the Philippine Colonial Government should follow Cuba, it would settle the colonization scheme to end the race question. The people of this country will have to settle this race problem themselves.

KENTUCKY SAFE PLACE FOR CAPITAL.

The Republican platform denounces the Democratic party because it "fetter enterprise, excludes capital and handicaps industry" in Kentucky.

Like any other statement of alleged facts contained in that platform, this declaration is shown by the records to be untrue. A plain statement will refute the charge.

During the four years of the Republican administration under Gov. Bradley, there were organized under the corporation laws of the State 822 corporations, with an aggregate capital of \$26,526,940, and the organization tax paid into the State Treasury therefor was \$26,526.94. During the first three years and six months of the Beckham administration, up to June 30, 1903, there were organized under the corporation laws of the State 1,792 corporations, with an aggregate authorized capital of \$99,602,795, and the organization tax paid into the treasury therefor was \$99,603. It is thus shown that during three and one-half years of the Democratic administration that \$69,075,855 more of capital found its way into the State of Kentucky and invested in the channels of trade than did under the full term of four years while Bradley was Governor.

The remaining six months of the present administration, from July 1st to December 31st of this year, will unquestionably increase the amount of capital invested in corporations in the State, at least \$10,000,000, which will show largely over \$100,000,000 of capital has been invested in Kentucky under the Beckham administration, against \$26,000,000 during Bradley's term. This is conclusive evidence that the great business interests of the country had more faith in the stability and conservatism of a Democratic administration than it had in a Republican administration. We recommend this record to the business men of Kentucky.

Why should capital shrink from investing in Kentucky under Democratic rule? It is no reflection upon any one to state the fact that more than 80 per cent. of the intelligent and educated people of the State are Democrats, and that at least 80 per cent. of the wealth of the State is held by Democrats. The laws of Kentucky are as liberal towards investors in business enterprises as the laws of the majority of the States. The Democratic party is progressive but not boastful. It points with pride to its management of State finances which has resulted in freeing the State from debt and leaving \$1,500,000 in the treasury. To accomplish this it has neither fettered enterprises nor excluded capital.

To show the confidence which the stockholders in the Belknap Hardware Company have in Kentucky, under a Democratic administration, it may be stated that its capital stock has recently been increased from \$1,000,000 to \$2,500,000. If it had not been safe to invest in Kentucky, under a Democratic administration, such good business man as Col. Belknap's friends claim that he is would not have done so.

WILL ECLIPSE ALL OTHERS.

Kentucky Building and Display of the State's Products and Resources at the World's Fair.

The plans of the Kentucky Exhibit Association, looking to a big advertisement of the State, industrially, commercially, naturally at the Louisiana Purchase Exposition in St. Louis next year, are rapidly maturing.

The Kentucky Building is acknowledged by the leading architects and contractors of the exposition to be the handsomest and most attractive of all the State buildings that have yet been begun. As to the displays to be made in the different departments, there is no telling how extensive and profitable the advertisement will become as thousands of square feet of space have been reserved for the "New Kentucky"—6,000 for minerals, 5,000 for tobacco, 5,000 for other agricultural products, 3,000 for horticulture, 3,000 for forestry, 2,500 for education, hundreds of stalls for live stock and individual space for machinery, liberal arts, transportation, varied industries, manufactures, etc., etc.

The Kentucky Exhibit Association is losing no time in getting these exhibits ready. M. F. Johnson is now making a tour of the State to see what counties will be represented in the agricultural and horticultural exhibits. W. U. Grider has just completed a visit to practically all the mineral counties and secured the promise of the best in every classification. Wm. Boa will start out in a few days to gather up the most attractive woods, commercially and otherwise, for the forestry display. Chas. D. Campbell is devoting two days each week to meeting the tobacco trade in the different sections and getting the most striking samples of "the weed." Prof. H. G. Brownell has just called on all the county and city school superintendents to learn what districts may be depended on for educational displays. L. L. Dorsey has issued a circular to every member of his committee on live stock—125 in all—asking for information as to the number of stalls that will be needed. The World's Fair officials have offered \$250,000 in premiums on live stock and Kentucky should be able to bring back a big bunch of this money taken on her horses, cattle, hogs, sheep, chickens, etc., etc. The exhibit association is contemplating paying the entire expense of stock sent from the State to the exposition and also awarding medals in the name of Kentucky to all prize winners.

Up to this time the association has raised about \$30,000, the solicitation having been done largely by mail. There are many counties that have not subscribed their apportionment of the \$100,000 and the Secretary of the organization is seeking to cover these in brief personal canvases.

The association needs many thousand dollars more to be able to put into effect all its plans and it is hoped that subscriptions will continue to roll in. Those of our citizens who have not contributed and intend to do so will aid the cause very much by delaying no longer.

Why Should Any Democrat Vote the Republican Ticket?

[Lexington Herald.]

When our Republican friends appeal to independent Democrats to vote their ticket and to oppose Democratic nominees, it must be shown, not that the Republicans are as good as the Democrats, but are better; that they stand for better party government, purer elections, better methods and more ready obedience to the spirit of the law. If both parties are equally good or equally bad, there is no inducement for a Democrat to vote for nominees with whose tenets he disagrees, to whose party he does not and can not belong.

GO RIGHT AT IT.

Friends and Neighbors in Maysville Will Show You How.

Get at the root of the trouble. Rubbing an aching back may relieve it, But it won't cure it. You must reach the root of it—the kidneys.

Doan's Kidney Pills get right at it. Reach the cause, relieve the pain. They cure too, so Maysville people say. Mr. W. L. Nicholson, of 14 Court street, employed by Russell & Sons, grocers, says: "The use of Doan's Kidney Pills by anyone who does much riding will help an aching back so quickly he will wonder greatly at the prompt and effective riddance of the trouble. I procured Doan's Kidney Pills at J. Jas. Wood & Son's drug store, corner of West Second and Market streets, on the advice of a friend and the results obtained were so satisfactory that it is a pleasure to recommend the remedy to others whenever opportunity is offered."

For sale by all dealers. Price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—DOAN'S—and take no substitute.

Gray's Views of Belknap's Chances.

Charles L. Gray, a leading Republican politician of Augusta, said recently: "I do not believe Col. Morris B. Belknap has one chance in a million of being elected Governor of Kentucky. In the first place he was not the man the Republicans should have nominated, and hundreds of the old party workers will not support him. They cannot stand for the methods by which he was nominated, and those who don't bolt him outright will stay at home and refuse to vote. Beckham's election is the surest thing I know of, and I am of the opinion his majority will be large."

River News.

Heavy rains are reported at headwaters and there ought to be a substantial rise in the next few days.

If the indications promising high water in the Ohio river hold good, 60,000 tons of steel rails will start from Bessemer, Pa., by river in a few days on the way to the gulf. The shipment is now loaded on seventy barges. Much of this steel is for relaying track on the Southern Pacific Railroad. Some is bound for Mexico and a portion is shipped on European orders for foreign countries. The first will go to New Orleans, where trans-shipments will be made. On the first stage of water another flotilla carrying 175,000 tons of iron cotton ties will go to New Orleans, this material being prepared for the gulf demand for next season's cotton crop.

Times are getting to be pretty hard when Kentuckians have to go all the way to Ohio to be lynched.

The Question Now is Who Can Help You Most With Fall Shopping?

The answer is partly told in this advertisement, but fully told by a visit to the store. To-day's talk will have ready-made goods and this department we are especially proud of for we believe that there are few stores that show and sell the amount of ready-made goods that we do. (Of course we mean towns the size of Maysville)

LADIES' SUITS—We are told daily that the best line of suits in town are here and at the rate we are selling them, there is no doubt of it. Suits from \$10 up, but we are selling more from \$15 to \$35.

CLOAKS—From the one day old to any age, and while the weather is warm of course you do not feel like buying, but did you know that the best choice is the early one? Almost 1000 garments to select from, and where in northern Kentucky can you get such a selection? Come and look even if you are not ready.

HATS—Trimmed and ready-to-wear. For the very highest price hats you must go to the millinery store. We are only after the lady that cares to save a few dollars on

a hat. \$10 hats for \$5 and we please you at the start—no coming back to see if it fits.

SHIRT WAISTS—In this line even our competitors admit we are supreme. "The Royal," the queen of the land; the best store in every town carries it. Price \$1.49 and up.

WRAPPERS AND DRESSING SACKS—A little department by itself, but hardly an hour passes in the day that somebody isn't made happy by the provision we have made for her home comfort. 79c. and up and all cut full.

MUSLIN UNDERWEAR—We fit up most of the brides from the five counties around us, and who is more particular than a bride? The best of undergarments are had here and fair prices rule.

WHEN BUYING A

Suitor Overcoat

For yourself or boy you naturally want the best for the least money. The best goods are always the cheapest, and as we buy and carry in stock more clothing than all the other stores in Maysville combined, our large purchases give us advantages that enable us to give you the best of merchandise at no higher cost than you would probably pay for lower graded clothes elsewhere. A word about the "fits" we give you. Perfect fitting garments are desired by every one, whether he pays \$10 or \$25 for a suit or an overcoat. Now "there" is a thing we are more particular about than the majority of our customers. We just won't let a garment go out of our house unless we are pleased with the fit. "You" need not look for imperfections. "We do," and correct them before you take the clothes home.

We want to call your attention to our line of the Manhattan new fall shirts. They are great and you will agree with us when you see them.

We want you to take a glance at the Stein-Block Cravenette Coat specially made for us. People who know say it's the handsomest garment they ever looked at. This coat is used both for overcoat and rain coat.

If you are going hunting this season buy a pair of our Milford High Top Shoes, they are strictly (guaranteed) waterproof. They sell everywhere for \$6. We sell ours for \$5.

WE ARE SHORT

Of cash and "long" on a certain make of Field Fence, therefore this tale is told to interest you: During the scarcity of Field Fence last Spring we bought a lot of "Pittsburg Perfect" to help us out on hurry orders, many of our customers finding it inconvenient to wait longer for other delayed shipments. Having about two-thirds of a car-load of the Pittsburg product left, in 26, 32 and 47-inch widths, we are very anxious to dispose of same so as to reduce stock to about the proper proportions. To effect a speedy sale of what remains of the "Pittsburg Perfect" we are willing to cut the price quite liberally. It is a good article and is well liked by those who have fenced their fields with it, and we make the reduction only for the reason stated above. Come in and see what we can do.

Child's Affection.

When weary and worn with the struggle in seeking life's coveted prize, when clouds of despair hover round me and shut out the blue of the skies; at times when I felt so discouraged, and burdened from bearing the load, that seemed to completely overwhelm me while struggling along the rough road, 'tis then for relief that I turn me away from the world and entwine my arms round the one who always loved me, that gray-haired old mother of mine. The blossoms of spring may all wither and the birds lose their power of song, yet life had a sweeter attraction than these to entice me along; her smile like the sunbeam of noonday brought gladness and warmth and good cheer, and it drove off the shadows of darkness and doubt that was hovering near—then I ask God, to take from me forever the riches of earth, but enshrine the wealth of the love of my treasure, that gray-haired old mother of mine!
